A Bald-Headed Woman

Shorn of Her Crown of Beauty, Loss in Love and Marriage

Hair is certainly most necessary to woman. Who could love and marry a bald-headed woman? What charms could one array to offset such a disfigurement?

A woman's goal is usually love and marriage. Her crowning glory is her hair. The loss of her hair mars her beauty, happiness and success. Yet right here in Red Cloud, there are thousands of women who are neglecting or injuring their hair to such an extent that it is only a matter of time when it will be utterly ruined.

Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They use curling irons over-heated, or to excess, which destroys the natural oil of the hair, causing it to split, break, and come out. They do not shampoo their hair often enough or too often. They use soaps and preparations which contain ingredients positively harmful to the scalp and hair.

As a result of such treatment, dandruff is created, the hair loosens, loses color, falls out, and baldness commences, unless proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about unhealthy scalp and hair conditions.

Almost any woman may rid herself of dandruff and diseased scalp and hair if she will but use the right remedy. We have that remedy, and we will positively guarantee that it will either cure dandruff and baldness or it will not cost the user anything.

That's a pretty broad statement, but we will back it and prove it with our own money. We will return your money if you do not find Rexall "93" Hair Tonic is an entirely satisfactory remedy that will promote hair growth and overcome scalp and hair trouble; that it will grow hair even on bald heads, unless all life in the hair roots has been extinguished, and the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial, and practical test.

We want you to try Rexall "93" Hair Tonic at our risk. You surely cannot lose anything by doing so, while you have everything to gain. You had better think this over, and then come in and see us about this offer. You will be well repaid for your visit to our store. Remember, you can get Rexall Remedies in this community only at our store—The Rexall store. The H. E. Grice Drug Co.

For coughing, dryness and tickling in the throat, hoarseness and all coughs and colds, take Foley's Honey and Tar Compound. Contains no opiates. For sale at Dr. Cook's drug store.

30 Horse-power Five-Passenger Fore-Door Touring Car

This car is now ready for demonstration. Come and see it. To fully understand the exceptional value of this car you have but to compare it with what the entire market has to offer for 1912. Study the specifications below carefully. In what other car will you find such value at such a price? What machine under \$1250 can you line up against this and item for item see so much for so little money? When you stop to consider the fine thorough construction—the heavy drop forgings—the pressed steel frame—the selective transmission fitted with F. & S. annular bearings (which the most expensive cars in the world use)—the 30 horse-power motor, the big wheel base, the fore-door body with door handles and all levers inside the car, you can better realize what an actual advanced manufacturing step this new car is.

SPECIFICATIONS OF MODEL 59

Wheel base, 106 inches; body, five-passenger fore-door touring; motor, 4 x 4 1-2; horse-power, 30; transmission, selective, three speeds and reverse; F. & S. ball bearing wheels, artillery wood, 12-1 1-2 inch spokes, 12 bolts each wheel; tires, 32 x 3 1-2 inches Q. D.

Agricultural Tendencies

The total area of the United States is about 1,911,000,000 acres. Of this about 841,000,000, or less than one half, was in farms in 1900. Less than one half of these farms were improved. Much of the land not included in farms is, of course, arid or semiarid, requiring irrigation to make it arable if it can be made so at all. The total population of the United States in 1900 was 76,303,387 and in 1910 it was 93,346,543, a gain in the last decade of 22.7 percent. Figures are not at hand to show the gain of population of cities for the same period, but the gain from 1890 to 1900 was 33.1 percent, a rate that certainly has not diminished in the last decade. It is generally admitted that the urban population is increasing more rapidly than the rural not only in the United States, but throughout the world.

The 841,000,000 acres of agricultural land were in 1900 divided into 5,700,000 farms, an increase of 1,700,000, or more than 40 per cent, over the number of farms in 1890, a rate of growth nearly double that of the population. Still it should be here noted again that the rate of the increase of the total population is much more rapid than the rate of increase in rural population. That is to say, that though the number of people to be fed by the products of agriculture is increasing at a rapid rate and the reduction of the farms on which these products are raised is proceeding even more rapidly, the number of people actually carrying on agriculture is relatively less.

These figures, while not at all exhaustive, are conclusive with respect to one thing: Farmers of the United States are annually being called upon to produce more per acre from their land. This they have been accomplishing for many years and it may be ventured that if the average production per acre were today what it was 25 years ago there would be a shortage of agriculture products for home consumption.—American Lumberman.

CHICHESTER PILLS

Wolfe & Whitaker, general blacksmiths, now carry a full line of farm implements, surreys, buggies, wagons, gang plows, gas engines, stacker ropes, all kinds of machinery and heavy hardware, and all supplies for same. Also all kinds of oil. Licensed Plumbers. Calls promptly answered.
